

ANIK RAJ C

MOBILE/WEB DEVELOPER

HELLO

I'm **Anik**
a Mobile and Web Developer
from India

I focus on creating polished, pixel-perfect, smooth and responsive applications helping end users achieve their goals painlessly and, more importantly, as quickly as possible.

EXPERIENCE

Present

Tapiko Payments

Head of Engineering and Design, co-founder

Developing an android application which enables fast and secure mobile payments through NFC or QR codes.

2015

Curio Corp

Mobile Developer

Developed an android application for farmers, where they can sell their goods directly to the consumer.

2015

Innovation & Entrepreneurship Development Centre

Web Developer

While being an Intern, I developed the official page for IEDC. I was promoted to the executive committee after the internship.

2014

Arklabs

Developer, co-founder

Developed and published games using Unity3D.

2013

Elite Enterprises

Mobile Developer, co-founder

Developed and published NEET, an entrance helper app in android which contained questions and MCQs from the medical entrance exams.
